Model 58-A

Model S-500

MODEL 58A The logical selection where freedom and mobility are necessary is the Model 58A, a dynamic lavalier-type microphone. Its small size (4" long), giving it the ability to be hidden behind a necktie or corsage, has made it a universal favorite both with commercial sound and TV broadcasters.

It can also be used in conjunction with its matching Model G-4 stand making it a desk unit.

Your choice of either HI or LO impedance. Net weight is only 3½ oz. Response is 60-13,000 cps. and output level —60 db at HI impedance. Dimensions are 1" diameter, 4" length. Cable is 25' with impedance selection at the free end of the cable. Finish in non-reflecting neutral brown. Shipping weight: 3 lbs. List **\$57.00**

MODEL S-500 A new standard of excellence is set by the new McMartin Model 500 series of cardioid-type dynamic microphones. These are directional-type microphones designed for use where noise could create a problem. They are "live" to sounds originating from the front and "dead" to sounds arriving from the rear. Thereby, helping to eliminate feedback.

This microphone features a newly-designed dynaflex diaphragm; a rugged microphone with a high degree of sensitivity.

Response is 40-15,000 cps; output level —55 db. Combination impedance HI or LO Z selected at the terminal end of the cable. Comes complete with 20' cable. Net weight is 12 oz. (less cable). Shipping weight: 3 lbs. List **\$87.50**

Model SR-585D

Models 44-D, C

MODEL SR-585D The Model SR-585D dynamic microphone is designed for fixed mounted application. Grocery call stations, switch boards, paging, dispatches, etc. can readily use a microphone of this type. This microphone is practically indestructible when properly installed and cannot be dropped or stolen.

The switch is a six-terminal slide switch which allows the user to wire anything from DPDT to SPST. The microphone is mounted on a 16" flexarm plus a mounting flange on the base. The cable extends 4' from the base of the mounting flange and is 4 conductor (two shielded). Response is 70-12,000 cps. Output level is —58 db. Overall length is 22". Shipping weight: 3 lbs. Specify HI or LO Z when ordering. List **\$43.50**

MODEL 44-D Brand new, the McMartin 44-D. An excellent microphone for paging and communication system is embodied in this modern compact unit. Sturdy, with variable low-end bass response. Omni-directional pickup pattern and combination cyclac and die cast zinc alloy case, it can be used indoors or out.

Response is 85-15,000 cps. adjustable to 60-15,000 cps. Output level is —56.5 db and is complete with removable 12' cable and on-off switch. Specify HI or LO Z when ordering. Shipping weight: 2 lbs. List **\$45.00**

MODEL 44-C Same as Model 44-D (above) except that the 44-C contains a ceramic interior. Response is 60-10,000 cps. and output level is —58 db. List **\$35.00**

MODEL P-9D This dynamic, rugged, heavy-cased hand or stand microphone is perfect for paging, PA, amateur or mobile use. It has a push-to-talk switch and comes in HI or LO Z (specify when ordering) output level —52 db, 7 foot cable supplied. Dimensions are 2⅝" wide x 5" in length x 1¾" in depth. Wt. 2 lbs. List **\$32.50**

Model P-9D

Models 252, 253

MODEL 252 The McMartin Model 252 is the ideal microphone for uses such as dispatch paging, PA, control tower, etc. Mike circuits and relay can be operated at a touch either on the front bar or the exclusive lever-lock switch on the side. This microphone is very rugged and is not affected by extremes of either temperature or humidity. Response is 60-10,000 cps. and output level —52 db. HI Z only. Seven foot cable is furnished. Shipping weight: 4 lbs. List **\$36.50**

MODEL 253 Same as Model 252 (above) except with 150 ohms impedance. List **\$36.50**
